In order for Esperanza to use the site, we will need to comply with all the security regulations for civilians entering a U.S. military base.

Every person who enters the base must present a photo ID (driver's license or school ID) that matches his or her name on a list Esperanza will submit to base security. We have provided base security with our member, staff and booster roster. Every person and vehicle is subject to search in order to enter the base.

While on base we will all need to strictly follow all military guidelines. Please respect all speed limits. **Cell phone use while driving is prohibited.** We must remain in our area and maintain good conduct at all times. Please help make this a good experience so we can continue to use this facility in the future.
